

Patient Safety

VIDEO LIBRARY

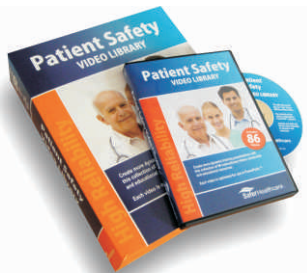

High Reliability

Includes
86
Videos

Create more dynamic training presentations with this collection of 86 instructional videos, transcripts and educational resources.

Each high-quality video is optimized for PowerPoint.™

SaferHealthcare®

Make your Presentations, Training Sessions and Workshops More Dynamic and Engaging

This video library contains 86 videos of pilots, nurses, physicians, patients, and other experts discussing high reliability topics. The videos are designed to be incorporated into PowerPoint™ presentations for staff development and training programs. The videos are approximately 1-5 minutes in length. The DVD-Rom includes full-text transcripts of each video, facilitator and usage guides and individual, high quality media files for each video. Ideal for trainers, educators and managers.
